Suffolk GLI to propose that Suffolk has a Cost-of-Living Emergency

Full Council is on the 7th July. Our Group have submitted a motion calling for SCC to declare a Cost-of-Living Emergency, and for the Council to redirect funds and efforts towards targeting those most vulnerable.

Prices for fuel, food and energy are increasing as wages take a real terms cut from the raising inflation. Our Group calls on this government for further support to those falling below the poverty line.

In addition, we are calling on the government to make it easier and cheaper to insulate homes. Our motion asks to waive VAT on energy-saving materials, such as insulation, and adequately fund a retrofitting programme so communities can save money on their bills during winter where energy price caps are due to rise even further.

Cabinet Meeting: SEND Capital Programme

Cabinet met on 20th June to vote on funding the next phase of SCC's programme to build more capacity for SEND children in education. The cabinet agreed a package of £15.9m, as part of a £45m programme.

Currently, there is a high demand for SEND services, with requests for placement going up by 32% since 2020. The funding Cabinet have agreed will create three new specialist units across Suffolk.

Our Group supported such a project, but was mindful of the rising demand and what was needed for the future. The Cabinet agreed a third phase was required, which will be discuss later this year.

National Grid consultation: SCC submit a response

Last month our Group said we would put pressure on SCC to respond to the consultation, rejecting the current proposals for expanding the on-shore pylon network in Suffolk. Our Group are strongly against the development of more pylon networks impacting Suffolk's rural landscape

and cultural heritage. The proposals are even criticised by Conservative MPs Dan Poulter and James Cartlidge.

After a meeting with Cabinet member, Cllr Rout, the Conservatives states they will also reject the proposals. SCC have now submitted a response to National Grid, agreeing with our position. They have stated that the application cannot be supported in its current form, and that an offshore alternative must be provided to be considered.
