The headlines for March were the highest speed of 60mph recorded heading away from the village at 23:15 on the 16th, and *only* 51mph inbound at 18:20 on 31st. Comparing this data with March 2022 the volumes and driver compliance with the speed limit are almost identical. The graph here is the combined data of traffic in both directions.

Here is the summary report from the SID positioned by the church. This month the data set is incomplete because the ANPR unit was on the pole for a week commencing 13/03. There was no mention of the ANPR unit on the village Facebook site unlike the last time. You will note that the top speed recorded was 45mph. The average speed of all vehicles passing the unit is just over 24mph, see last table.
