## Eye

### You said...

You told us you were concerned about drug issues in the town, particularly the use of cannabis.

### We did...

While conducting targeted patrols, officers dealt with the male driver of a vehicle, stopped originally for moving traffic offences and found him in possession of herbal cannabis

### Responding to issues in your community

Vehicles parked in Church St. Eye have been subject to damage during October, with three cars 'keyed' between the 18th & 25th of the month. Should you see anybody acting suspicious in the area, please contact Police on 999. Officers have been conducting directed patrols and taking measures to try & catch the offender and deter further offences.

### Making the community safer

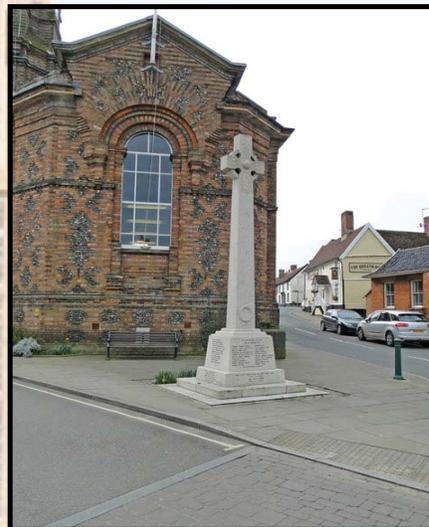

Members of the Halesworth Safer Neighbourhood Team were at the Riverside Centre, Stratford St. Andrew last week with partner agencies, taking part in this years' Crucial Crew event. It's an annual event which delivers hard hitting, street wise information to 10 & 11 year olds who attend from local schools. It was particularly timely this year, as the policing message for 2018 was about ASB, just prior to Halloween

### Preventing, reducing and solving crime and ASB

This years' Halloween appears to have passed with not a single report of ASB or damage reported for the Eye area. The Safer Neighbourhood Team were out and about on the night engaging with Trick & Treaters and it was good to see how many of you had taken advantage of the free posters downloaded from our website encouraging or discouraging callers.
